

## **Computer Remote Access Requirement**

As per craigslist updated rules, we must use quality IP addresses to each post ads. So, we are requesting our customers to provide computer remote access to post your ads. Computer should have a basic configuration with internet connection but need verizon wireless internet connection if it is multiple city posting because need to switch IP address for different cities.

We are working with 650+ customers for craigslist and online posting service. They are all providing computer remote access for their online ad listing.

If you have any confidential data in your computer, you can provide guest user to limit the access and allow only the browser to post your ads.

### **How to install remote access tool?**

1. Please download and install "Teamviewer 11" -  
[http://download.teamviewer.com/download/TeamViewer\\_Setup\\_en-lup.exe](http://download.teamviewer.com/download/TeamViewer_Setup_en-lup.exe)
2. Install as "personal use"
3. set permanent password as "cladpost123"
4. Share teamviewer ID
5. Confirm which time we can access the computer for posting your ads.
